FAMILY NIGHT

This Friday night shoppers have the opportunity of shopping until 9 o'clock and at the same time buy some real bargains right here at the time when shopping is a must for Christmas. Read the advertisements in this issue of The Clipper and see what is being offered. Added to bargain prices are a number of free gifts to be awarded to lucky visitors.

THE FAITH OF THE PILGRIMS... In a Thanksgiving message, Director J. Edgar Hoover of the FBI paid a moving tribute to the Pilgrims and the ideas they left to us. Then he said: "Regrettably, too many Americans no longer care about religious ideals and heritage. To some, our country is a fantasyland filled with complimentary handouts of rights and freedoms without obligations. With patent indifference, they shirk the mere suggestion of individual responsibility. Their purpose in life is lost in moral lethargy, self-indulgence, and neglect of duty."

A cynical, unthinking attitude such as Mr. Hoover describes can, if ever it becomes widespread enough, prove suicidal for this or any nation. All our material abundance could not then save us from ultimate destruction as a free people. Those who forsake duty ask for masters who will impose duty—the duty of slaves. The faith of the Pilgrims was never so greatly needed as it is today.

NOTICE

The November issue of Photography carried an article (and pictures) entitled "How Did Photographers, TV, and the Press Meet The Challenge of the Topless Swimsuits?" Pictured, also, bare-breasted Filipino women field hands that gave editors of National Geographic pause in 1903, but published it after getting an okay from the magazine's board chairman. But 20 years later, a group of ladies wearing sleeveless, short-legged swim suits were arrested for appearing on a public beach in Chicago in "such indecently scanty attire." Compared with the "topless" swimsuits of today, the ladies of 1903 were modest indeed.

Funds Approved For New Nursing Home In Elba

Drexel Cook, Chairman of the Elba Hospital Association Board, announced that he had just received written notice of the awarding to the Association of \$290,000.00 in Hill-Burton funds for the construction of the 40 bed Elba Nursing Home.

Cox and his wife are natives of Florida. He is a graduate of Florida High School and a Montgomery business college. Prior to serving four years in the United States Army he held a position with a Montgomery firm for two years. After being discharged from the Army he accepted a position as advertising manager of The Florida News in Florida where he has learned the newspaper operation from every angle and was with the plant when it was converted from letter press and hot-type, to off-set and cold type.

Kendall Congratulates TB Workers

Robert G. Kendall, Jr., President of the Alabama Tuberculosis Association congratulated Coffee County TB workers on the excellent job done throughout the year in the fight against tuberculosis. Mr. Kendall said, "I sincerely hope that everyone in the county will back the Christmas Seal Campaign again this year. Christmas Seal funds will be used to tuberculin test every school child in the county in the hopes of tracing down hidden cases of TB. This project will add tremendously to the efforts of TB workers to knock out tuberculosis."

Damages Asked By Slained Policeman's Widow

Mrs. Herman Driggers, widow of an Elba policeman who was shot to death while seeking to serve a warrant, appeared before the State Board of Adjustment last Tuesday in a pending case, seeking \$13,600 in damages, the maximum amount allowed for a death claim under the Workmen's Compensation Act.

Driggers accompanied Deputy Sheriff J.B. Adkinson in serving a peace warrant on Allen Devine, of Elba, late in the afternoon, September 2nd. As the two officers stepped out of their car, Devine opened fire with a 12 gauge shotgun, killing Driggers instantly. Adkinson was shot in the left hand, then after taking cover behind a tree, he returned the fire with his pistol. As he looked around the left side of the tree he was shot in the left hip, and moments later, looking around the right side of the tree he was shot in the right arm by Devine.

Devine is now in Coffee County jail awaiting trial under two indictments, one for first degree murder, the second for assault with intent to murder.

Attorney Bill Stokes represented both Mrs. Driggers and Deputy Sheriff Adkinson at the hearing. He claimed that the Driggers claim was a "new case" in that Driggers was not an employee of the state but an employee of the City of Elba, but that the law creating the adjustment board specified that persons doing a business for the state were entitled to just compensation. His argument was that Driggers was doing business for the state when he was killed.

After his election, Hildreth, Restaurant in Enterprise, dretth issued a statement criticizing the high rate of taxes paid on gasoline sold in Alabama.

This 12 cents per gallon tax amounts to more than a 55% sales tax on the purchase price of gasoline." "Twelve counties and 319 cities have local taxes in addition to the 11 cents per gallon state and federal tax," he added.

CAN'T ALWAYS... When you can't find items you need in your local stores it becomes necessary to try and get it elsewhere. Since moving into a house in Elba, I needed several items and started out trying to find them in Elba stores. After two weeks failing to find them, I then started looking in Florida stores where I'm also interested. After two weeks failing to find them there, I started looking around for a mail order catalog. Finally I borrowed one and now have them ordered. I have been expecting to get a notice every day that they are "out of the items" I ordered. That is all it would take to make me decide I didn't want them in the first place.

SAMPLES... I received several samples of new Campbell's soups that are really good. Also received this week from the same company were two cans of Gilette Gravy that is real good. The two new soups are "old fashioned" vegetable soup and noodles and ground beef soup. For a quick meal during busy days they are really good to serve almost immediately.

GOVERNOR WALLACE INVITED... Governor George Wallace received an invitation to be one of three speakers at a stage production "In White America," at the

Syracuse University. The University plans to present the stage show on its campus next Spring. The play deals with the problems of the Negro in America.

In conjunction with the stage production, the University plans a four-part lecture series on the same subject. Wallace was asked to be one of the four lecturers. The other three invited are Nicholas Katzenbach, acting Attorney General of the U. S., and the man who asked Wallace to get out of the door at the University of Alabama, Malcolm X, the Black Muslim leader and Martin Luther King, integration leader.

the Secret of THANKSGIVING

THE CHURCH FOR ALL

ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake; (2) For his children's sake; (3) For the sake of his community and nation; (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Does the "horn of plenty" make us thankful?

We do not become thankful by our abundance. The spoiled child lavished with gifts is not thankful.

It is not the horn of plenty, but the bigness of our heart that makes us thankful. The blessings God gives are infinite, but we must have the capacity to receive. Like a child who carries a bucket of water from the sea, we can only carry as many blessings as our heart will hold.

The capacity to receive comes through worship and prayer. We go into the presence of God and think deeply about our life. Understanding is awakened. With new eyes, we see our blessings and are grateful. We kneel, pour, and rise rich.

Thanksgiving Day brings us a special opportunity for worship and prayer. Isn't this why we want to be in Church with our family? Here we discover the secret of Thanksgiving.

Wallace Urges

Safe Driving

For Thanksgiving

Thanksgiving in Alabama in recent years has become blood stained due to the numerous deaths and injuries in traffic crashes on Alabama's streets and highways.

Governor George C. Wallace and State Director of Public Safety, Colonel Albert J. Lingo, voicing concern over the appalling slaughter on streets and highways, urged the motorists to exercise the utmost care and caution while traveling this Thanksgiving season.

They pointed out that traffic would be extremely heavy during the coming holiday period as they further requested motorists to stop their share to stop this needless loss of human lives in accidents on the highways.

Last year, Major Cloud said, the accident causes on Thanksgiving holidays were speeding, driving on the wrong side of the road, failure to yield the right-of-way, and driving while intoxicated.

Eighteen persons were killed as a result of traffic accidents during the 1963 Thanksgiving holiday period. This loss of lives, Colonel Lingo emphatically urged that should be reduced for 1964.

He urged those behind the wheel of motor vehicles to:

1. Leave in plenty of time to reach your destination without speeding.
2. Maintain adequate distance between your car and the vehicle you are following.
3. Stay in line until there is ample room for safe passing.
4. Devote full attention to driving. Be courteous.
5. Be watchful at intersections, curves and hillsides.
6. Stop at all railroad grade crossings. Take time to stop, look, and listen for approaching trains.
7. Stay sober. If you must drink, have someone else to drive.
8. By all means, pay heed to all the traffic signs and highway markers, as they are placed there for your protection and assistance.
